### ASSIGNMENT FOLIO

#### SEO Optimization

##### Objective:

To improve the search engine visibility, organic traffic, and overall website performance of a newly launched website by implementing effective On-Page, Off-Page, and Technical SEO strategies.

#### Website & Keyword Planning

Analyzed the website structure and performed keyword research to identify primary, secondary, and long-tail keywords based on user search intent (informational, navigational, transactional).

#### On-Page SEO Implementation

Optimized web pages using SEO-friendly URLs, title tags, meta descriptions, and proper heading structure (H1– H3) to improve relevance and search engine ranking.

#### Off-Page SEO Activities

Built high-quality backlinks through guest posting, business listings, profile creation, social bookmarking, and forum participation to increase domain authority.

#### Technical SEO Optimization

Improved page speed, mobile responsiveness, and HTTPS security, to ensure better crawling and indexing.

## **SEO Growth Strategy**

### **Objective**

To strengthen ORELIAN's online presence by improving search visibility, attracting high-intent customers, and increasing organic sales through a strategic SEO approach.

### **1. Website Planning & Keyword Strategy**

Designed a clear website hierarchy and selected high-value primary, secondary, and long-tail keywords based on customer buying behavior and search intent to improve search rankings.

### **2. On-Page SEO Optimization**

Optimized every key webpage with SEO-friendly URLs, compelling title tags, meta descriptions, structured headings (H1–H3), optimized images, and internal linking to enhance user experience and organic visibility.

### **3. Off-Page SEO Strategy**

Focused on building brand authority through quality backlinks, guest blogging, digital PR, business directories, influencer collaborations, customer reviews, and social media engagement.

### **4. Technical SEO Enhancement**

Improved website speed, mobile responsiveness, Core Web Vitals, secure HTTPS implementation, XML sitemap, and crawl efficiency to ensure better indexing and overall website performance.
